THE DRY AMENDMENT

The long fight to make America dry enters upon a new stage by the passage Monday by the national house of representatives of the resolution proposing to the states a prohibition amendment to the federal constitution. The senate has already approved the resolution in slightly different form. Agreement in conference should not be difficult.

It is a consummation toward which dry workers have been looking for years. At last a congress of the United States has been persuaded to endorse a propaganda that was first scoffed at, then respected and at last feared by every politician opposed to it during two generations. A triumph that seemed impossible of attainment has been won.

To the state legislatures the fight is now transferred. Thirty-six of them must approve the amendment to make it effective. If thirty-six say yea, the other twelve must close their saloons whether they will or not. Up on the face of the conditions as they now exist there are not three dozen states ready to endorse the dry proposal. The effort of the drys will be to add to the states now dry enough more to give them the necessary three-fourths required to ratify.

This action of congress will throw the wet and dry issue into next fall's campaign in each state where the question is still deemed debatable. The liquor question will in every such case determine the personnel of the next legislature. This will be true in Ohio unless the unenforced should occur and the present assembly in special sessions this winter should ratify the dry federal amendment. So in congress ends no fight. It merely gives an old fight a new aspect.—Cleveland Plain Dealer.

BUY WAR SAVINGS STAMPS

Governor James M. Cox this week enlisted his support in the Ohio campaign for the sale of War Savings Stamps.

In a statement issued yesterday, he urged all Ohio people to meet their government's request to buy either Thrift Stamps or War Savings Stamps, or both. His statement follows: "The very smallness of the cost of the War Savings Stamps must bring everyone to the realization that no sacrifice is too minute to help win the war. Denial of some small luxury and the purchase of a stamp makes it possible for all of us to aid the cause to which this country is pledged."

Citizens of Ohio subscribed generously to Liberty Bonds. Those people who bought bonds are expected to buy War Savings Stamps. Those who did not buy bonds, because of financial inability, surely will be able to aid their government by purchasing War Savings Stamps, when an amount as small as 25 cents will be accepted. This is a period of self-sacrifice for every man, woman and child in the United States. For our country successfully to prosecute the great war, it is necessary that its citizens render unqualified support—both moral and financial. War Savings Stamps furnish the medium by which all may assist.

Ohio's allotment of War Savings Stamps is \$106,000,000. Let everyone come forward and take his share.

FROM THE PRESIDENT'S MESSAGE.

"Yet there be no misunderstanding. Our present and immediate task is to win the war, and nothing shall turn us aside from it until it is accomplished. Every power and resource we possess, whether of men, of money, or of material, is being devoted and will continue to be devoted to that purpose until it is achieved."

"We shall regret the war as we only when the German people say to us, through properly accredited representatives, that they are ready to agree to a settlement based upon justice and the reparation of the wrongs their rulers have done."

"When this intolerable thing, this German power is, indeed, defeated and the time comes that we can discuss peace—when the German people have spokesmen whose words we can believe and when those spokesmen are ready in the name of their people to accept the common judgment of the nations as to what shall henceforth be the bases of law and of covenant for the life of the world—we shall be willing and glad to pay the full price for peace and pay it ungrudgingly. We know what that price will be. It will be full, impartial justice—justice done at every point and to every nation that the final settlement must affect, our enemies as well as our friends."

Stomach Trouble and Constipation
Those who are afflicted with stomach trouble and constipation should read the following: "I have never found anything so good for stomach trouble and constipation as Chamberlain's Tablets. I have used them off and on for the past two years. They not only regulate the action of the bowels but stimulate the liver and keep one's body in a healthy condition," writes Mrs. Benjamin Hooper, Auburn, N. Y.—adv.

The shoemaker may be a mighty good man, but you can't say he is too good to last.

Brick last Friday evening to spend the time as people do, if only the folks can be induced to leave their own firesides and get together after the day's labors. The time was only too short with visiting, general conversation, games, etc. The ladies brought along many good things to eat of which those present partook enjoyably, nothing daunting with the sparing use of sugar at this time. Members are all looking forward to the next event not far distant. Present were Mrs. T. J. Brick, Mr. and Mrs. R. K. Brick and son Billy, Mr. and Mrs. A. C. Carson, Mr. and Mrs. F. R. 20,000 GRADUATE NURSES WILL BE REQUIRED IN ARMY HOSPITALS

With a continuance of the war, in the next year at least 20,000 nurses will be needed in Army hospitals at home and abroad. Of the 80,000 graduate nurses of the country only 3,500 have so far been assigned to duty in Army service, and of this number 1500 are in France.

An army nurse must be a graduate of a training school for nurses and must have served for two years in a hospital. They are assigned to duty in the United States or abroad, and preferences are granted when conditions permit. Nurses who prefer not to have service abroad will have their preferences respected.

Even when a man is under a cloud he may argue that they come high, but we must have them.
